

Andrew Mueller Troop 1656 Completes Eagle Project
Sugar Land, TX News
Posted September 1, 2009

A Boy Scout Eagle project gives a scout leadership experience and supports non-profits. The Eagle project that Andrew Mueller planned and executed first befitted the Sacred Heart Catholic Church of Richmond. With the help of 35 others and over 185 hours of service Andrew managed the planting of 15 trees on the church grounds. After the trees were planted, he spent more time recruiting donations for a name plate for each tree. The plates are inscribed and serve as a permanent memory for each donor. The balance of money collected was donated to the Catholic Seminary. *Please mention you found this on SugarLandMagazine.com.*
